| Description  Net income (net loss) appearing on the statement of results used to declare your financial information  Adjustment to consider for the net income (net loss) due to changes you made to the financial data (at the request of the FADQ to meet AGRI programs standards)  Accounting depreciation (in accordance with generally accepted accounting principles)  Income from a non-farming activities¹  Income from a non-farming activities¹  Income and expenses of non-farming activities are determined on the basis of accrual accounting. They may include allowable and non elements for Agristability.  You must declare an amount:  when the income and expenses related to non-farming activities were compiled separately from the operation's farming activitie financial statements (or considered non-farming activities or tax purposes).  or when this income represents more than 30% of the operation's total income.  If you have established that you have to report amounts as income and expenses related to non-farming activities, you should not include that you already reported under the codes 9609, 9943, 9837 and 9990.  Please provide an itemized breakdown of your total salary expenses, making separate entries for salaries paid to persons (non-arm's length salaries), to unrelated persons (arm's length salaries) and shareholders, for the fisce ending in 2014.  Salaries paid to family members are non-arm's length salaries. Those paid to shareholders of your company st reported under the corresponding line. For more information concerning arm's length and non-arm's length salaries see the <i>Program Handbook</i> , available on our web site or from the service centre in your region. ## **B. PRODUCTIVE UNITS**

In the framework of your participation in AgriStability and Agri-Québec Plus, you must provide your operation's number of productive units for your fiscal period ending in 2014. The number of productive units provided enables us to adjust your operation's reference year production margins in relation to its production capacity during the participation year.

For reference purposes, you will find in the table, the productive units of the last participation year for which you transmitted your financial information. They may be helpful to you in completing the table of productive units for the 2014 participation year.

In addition, we have shown the productive units listed in your crop insurance and stabilization insurance file for the 2014 participation year. They could be different from those appearing on your crop insurance certificates or your stabilization insurance payment sheets. They were established on the basis of the twelve-month period following the end of the fiscal period ending in 2013 and not for the period covered by the insurance year. Your productive units could be subject to an adjustment based on the period covered by your fiscal period, according to your 2014 declaration.

For the productions already entered, please complete any spaces that were left blank. Also report any other of your operation's productions. You must report your productive units based on the fiscal period ending in 2014. If you do not have enough space in the table, please add another sheet containing the same type of information.

To report all your operation's productive units based on your fiscal period, see the *Guide for reporting productive units* on our website at: <a href="https://www.fadq.qc.ca">www.fadq.qc.ca</a> or contact your service centre.
