B. PRODUCTIVE UNITS

In the framework of your participation in AgriStability, you must provide your operation’s number of productive units for your fiscal period ending in 2013. The number of productive units provided enables us to adjust your operation’s reference year production margins in relation to its production capacity during the participation year.

For reference purposes, you will find in the table, the productive units of the last participation year for which you transmitted your financial information. They may be helpful to you in completing the table of productive units for the 2013 participation year.

In addition, we have shown the productive units listed in your crop insurance and stabilization insurance file for the 2013 participation year. They could be different from those appearing on your crop insurance certificates or your stabilization insurance payment sheets. They were established on the basis of the twelve-month period following the end of the fiscal period ending in 2012 and not for the period covered by the insurance year. Your productive units could be subject to an adjustment based on the period covered by your fiscal period, according to your 2013 declaration.

For the productions already entered, please complete any spaces that were left blank. Also report any other of your operation’s productions. You must report your productive units based on the fiscal period ending in 2013. If you do not have enough space in the table, please add another sheet containing the same type of information.

To report all your operation’s productive units based on your fiscal period, see the *Guide for reporting productive units on our website at www.fadq.qc.ca* or contact your service centre.

1 If two of your fiscal periods ended in the 2013 year, use this column to enter the information requested concerning the fiscal period corresponding to the period of fewer than twelve months. If this situation applies to you, please use the column located at the far right of the table on the following page when you report your operation's number of productive units for that period.
