

## AGRI-QUÉBEC

2024

### GENERAL PRINCIPLES

The Agri-Québec program allows participating operations to annually deposit an amount in an account in their name and to receive a matching contribution from La Financière agricole du Québec.

Participating operations can withdraw amounts of money from their account based on their needs. Given the similarities and complementarity between the Agri-Québec and AgriInvest programs, the management of the financial information, the issuing of the Deposit Notice and the administration of account operations are undertaken jointly.

The participant's deposit, the government contribution and the accrued interest are deposited into an individual account administered by La Financière agricole.

The participant's account has two funds. Fund 1 corresponds to the amounts deposited by the participant. Amounts withdrawn from Fund 1 are not taxable. Fund 2 corresponds to the amounts deposited by La Financière agricole, to which the interest generated by Funds 1 and 2 is added. Amounts withdrawn from Fund 2 are taxable as investment income.

The 2024 participation year concerns the participating operation's fiscal period or periods ending in 2024.

### PARTICIPATION

Operations that are in their first participation year or that want to re-register must contact their service centre in order to enrol, at the latest 12 months after their fiscal year-end.

### ELIGIBILITY CONDITIONS

The participating operation must:

- undertake farming or aqua-farming activities in Québec and report farming income or loss for the participation year for income tax purposes;
- be domiciled (individual) or have the head office and main place of business in Québec (corporation, cooperative and trust);
- provide a Social Insurance Number (SIN), Québec Business Number (NEQ) or a federal business number (BN), according to the operation's legal status;
- be registered with the Ministère de l'Agriculture, des Pêcheries et de l'Alimentation du Québec, and provide the operation's registration number (NIM);
- market a product subject to the regulations and conventions in effect;
- submit a valid phosphorus report (cross-compliance measures);
- abide by program requirements with regard to deadlines.

### ALLOWABLE PRODUCTS

Most agricultural and aquacultural products are allowable, except for:

- products covered or associated with the Farm Income Stabilization Insurance Program (ASRA) or supply-management;
- forestry products;
- racehorses;
- peat moss;
- cannabis (except for industrial hemp);
- wild animals in their natural environment.

Moreover, the resale of products that do not come from the farming operation and income derived from farming activities carried on outside of Canada are not eligible.

### TRANSMISSION OF FINANCIAL INFORMATION

Participants must transmit their financial information within nine months of the end of their fiscal year or by the deadline specified in the financial data transmission document. When participants send their financial information late, but within three months after the deadline, their maximum allowable deposit is reduced by 5% per month or part of month late. The financial information transmitted by participants will be used for all the AGRI programs in which they participate or to meet the requirements financing

### ALLOWABLE NET SALES (ANS)

ANS correspond to the sales of allowable agricultural or aquacultural products minus the purchases of allowable products. ANS are calculated separately for the agricultural and aquacultural sectors.

Income and purchases for activities carried on outside Québec are not considered.

ANS are calculated using an accrual method of accounting and the sales of allowable agricultural products are adjusted to include changes in inventory. In addition, payments from certain other programs that compensate for the loss of allowable agricultural or aquacultural products are taken into account when calculating ANS (e.g. crop insurance, private insurance).

Particularities may apply to the calculation of ANS for some productions.

### DEPOSIT

Upon receiving a participant's financial information, La Financière agricole calculates its ANS and the amount of its maximum deposit in order to receive the matching government contribution. A joint and the amount of its maximum deposit in order to receive the matching government contribution. A joint Deposit Notice for the Agri-Québec and AgriInvest programs confirms such amounts.

Once participants receive their deposit notice, they can deposit an amount up to the maximum allowed. To make a deposit, a transfer can be made from money in their account. The transfer must cover the entire amount the participant wishes to deposit, which is considered a withdrawal from the accounts.

Participants may make only one deposit for every Deposit Notice issued, within 90 days following the date of the notice. Under the Agri-Québec program, participants who make their deposit after this period, but up to the 180th day following the date of the Deposit Notice, will have their maximum allowable deposit reduced by 25 %. The minimum amount that can be deposited is \$150.

Following a deposit, La Financière agricole pays the government contribution into the participant's account and confirms, in writing, the amount along with the new balance in the account.

The government contribution is equivalent to the participant's deposit. The following table presents the different rates used to calculate the maximum deposit amount.

## WITHDRAWAL

At any time, participants can withdraw the amount they wish, up to the balance in the account. The minimum amount that can be withdrawn is \$75. A withdrawal may, however, be below \$75, if it brings the account balance to zero, or if it is used to pay an amount owed to La Financière agricole.

When a withdrawal is made, the amounts are taken from the accounts in the following order:

1. Fund 2 AgriInvest
2. Fund 1 AgriInvest
3. Fund 2 Agri-Québec
4. Fund 1 Agri-Québec

## ADMINISTRATIVE FEES

Annual administrative fees apply to all participants entitled to a government contribution, whether or not they make a deposit into their account.
