

APPLES - PLAN B

2018

Individual crop insurance offers coverage based on the production volume of the participant's farming operation. Protection is offered for productions in organic or conventional mode.

INSURABLE CROPS

Apples of the Paulared variety and those that ripen later than that variety.

RISKS COVERED

- Wild animals against which there is no adequate means of protection, with the exception of waterfowl, covered through the Wildlife Damage Compensation Program under the Federal-Provincial Agreement on the AgrilInsurance Program
- Floods
- Excessive wind, rain, humidity or heat
- Defective flowering and fruit setting
- Ice formation in soil and frost during the months of November to April, when the crop was insured the previous year
- Frost
- Hail
- Uncontrollable insects and diseases
- Snow
- Hurricanes, tornadoes
- Drought

PROTECTION OFFERED

- Basic coverage: against loss in quantity for all risks
 - In conjunction with basic coverage, there are two possible options:
 - Multi-risk quality option: against loss in quality for all risks covered
 - Hail quality option: against loss in quality for the risk of hail
- Certified organic apple production is eligible for basic coverage only
- Benefit options: 60%, 70%, 80% or 80% with abandonment of the total insurable yield
 - Unit price options (\$/kg): 80% or 100%
 - A unit price specific to certified organic production is offered
 - Total insurable yield = Probable yield x Number of insurable tree units

- Probable yield: Yield specific to the participant's farming operation established by La Financière agricole du Québec and expressed in kilograms per equivalent tree unit
- Start of coverage: At beginning of vegetation
- End of coverage: When crop is harvested, without exceeding the date found in the *Directory of the dates* (www.fadq.qc.ca/en/documents/crop-insurance/documents-in-effect)

ENROLMENT

- Enrolment deadline: April 1, 2018
- Minimum insurable: 100 tree units

Farming methods

Abide by the methods recommended by the Centre de référence en agriculture et agroalimentaire du Québec (CRAAQ) or approved by La Financière agricole.

YIELD DECLARATION

Each year, participants must declare their total production to La Financière agricole. When this obligation is not met, the participants' yield for that crop and year will be determined by La Financière agricole, which may lower the probable yield for the following years.

ELIGIBILITY CONDITIONS AND CROSS-COMPLIANCE MEASURES

The program sets out eligibility conditions and cross-compliance measures related to environmental standards in effect.

Participants who do not comply with these conditions or measures will lose the benefits to which they are entitled or see them reduced.

CHANGES TO CERTIFICATE

Participants must notify La Financière agricole by August 1, 2018, of any change that could modify their insurance certificate.

NOTICE OF DAMAGE

When a participant's insured crops are damaged, the participant must notify La Financière agricole immediately, and no later than two business days before the harvest begins or urgent work is carried out or the crop is destroyed.

COMPENSATION

Emergency measures

Emergency measures may be authorized by La Financière agricole to mitigate or avoid a drop in yield.

This indemnity can be paid for benefit options at 80%, and 80% with abandonment.

Abandonment

When the crop is damaged by a risk covered by the insurance, to the extent of abandoning this crop over part or all of the affected area, abandonment compensation is paid out for the affected area when the participant has opted for the 80% guarantee with abandonment.

Abandonment may be authorized provided that an agent from La Financière agricole can assess the damages while the crop is still in the field.

Minimum required: entire orchard or undivided grouping of 100 tree units or more.

Drop in yield

Compensation is paid when damages result in a loss of yield greater than the deductible corresponding to the benefit option listed on the participant's certificate.

However, when the hail quality option is chosen, the loss in quality compensated cannot exceed the loss attributable to that risk, as determined by La Financière agricole.

GOVERNMENT PARTICIPATION

Administrative costs are fully assumed by the governments of Canada and Québec. The Government of Canada pays 60% of these costs and the Government of Québec pays 40%.

Financing of the premium is partly assumed by the governments. The participant's share ranges from 20% to 57.2% depending on the benefit option chosen.

This coverage summary in no way takes precedence over the provisions of the Crop Insurance Program, of the regulation in effect and of the agreements with the Government of Canada.
